假如家是一个伴随成长的盒子，而里面又规划出各式各样的微盒子，承载着我们的记忆与经历的种种！

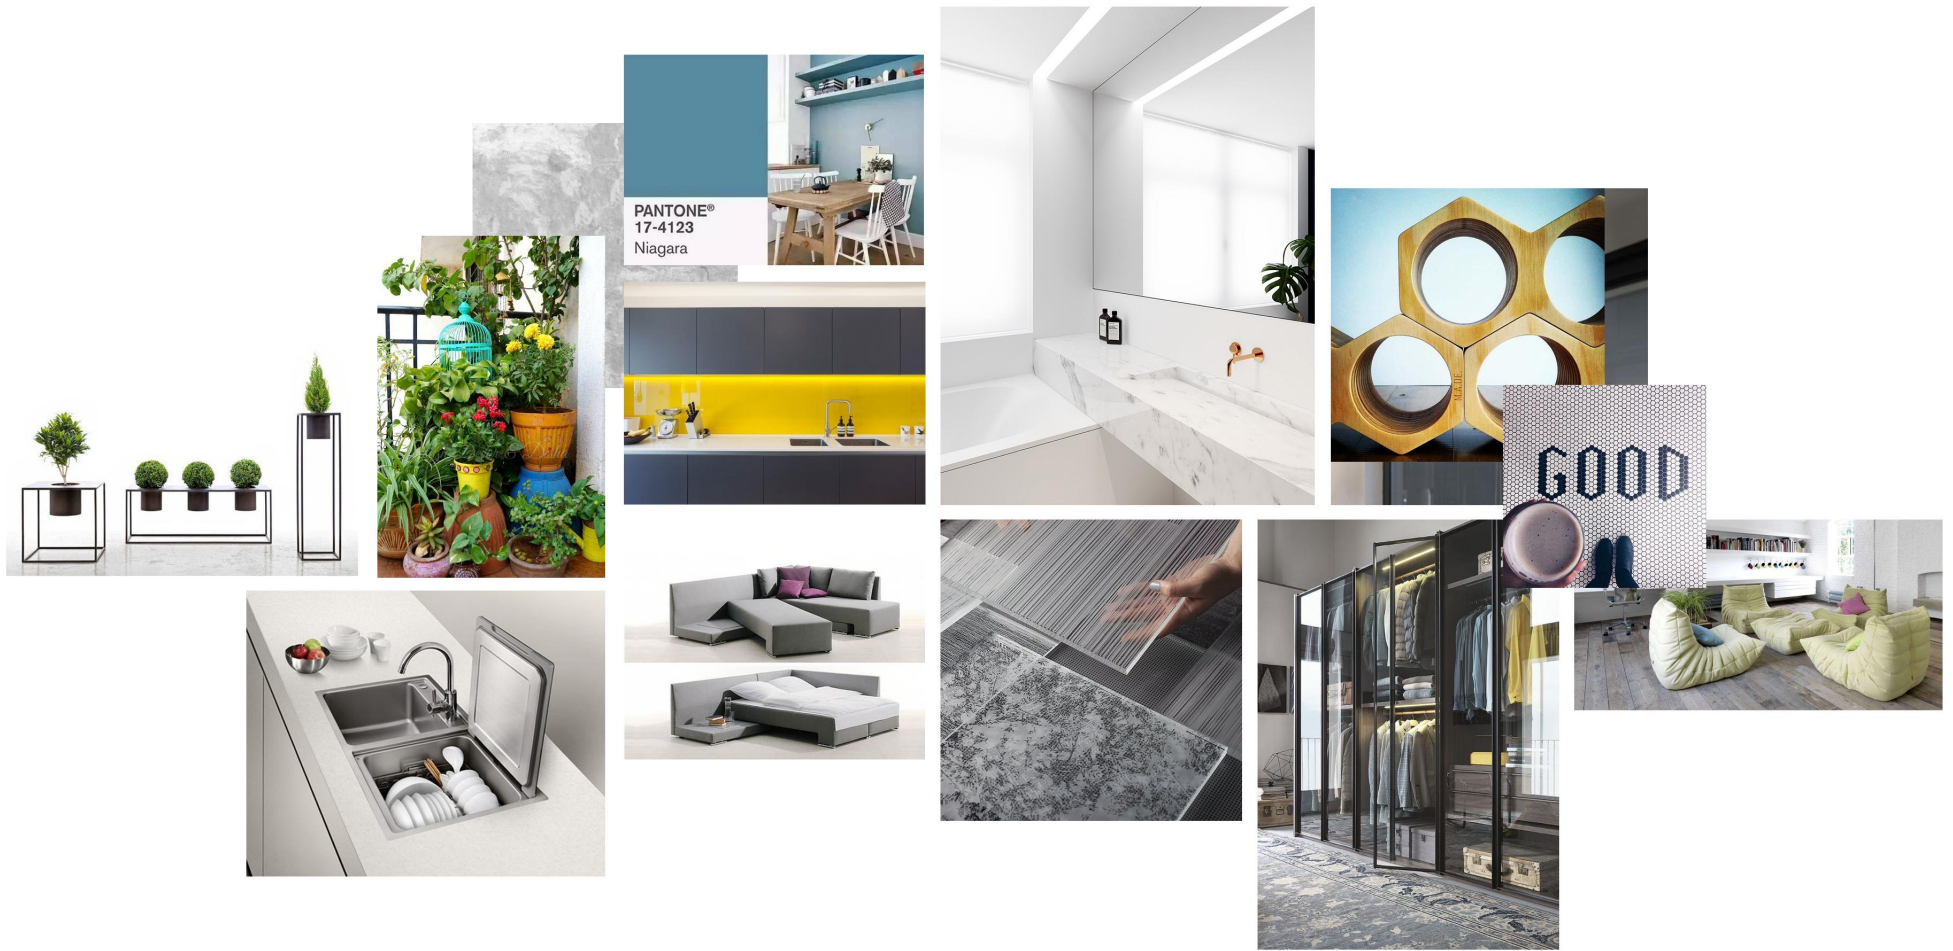

那么，人便是这个盒子不可缺少的主体；

那么，空间便是这个盒子的延续。

(If the home is accompanied by a growing box, and inside the planning of a variety of micro-box, carrying our memory and experience all kinds of! So, people are the main body of this box indispensable! So, the space is the continuation of this box!)

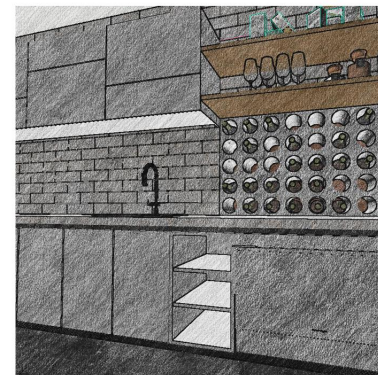

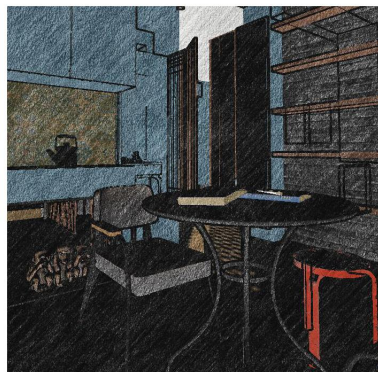

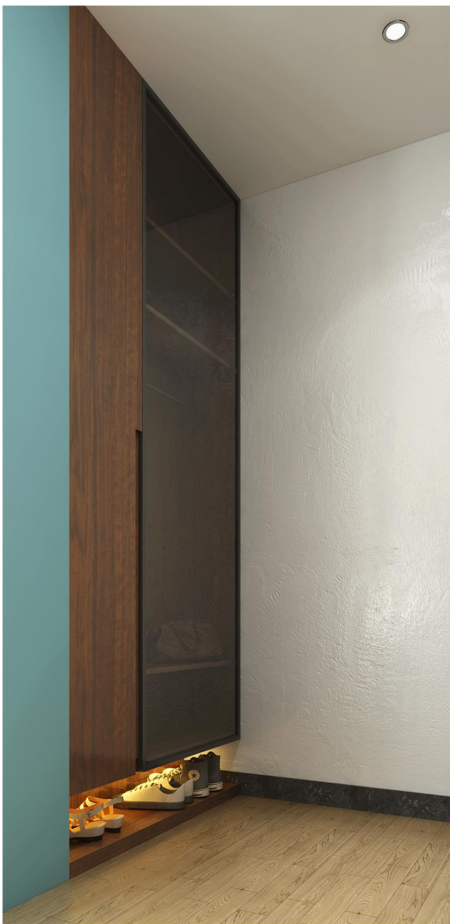

● 本

案以“延”，作为展开。营造一个适合现今年轻一代的居住空间，
 (The case to extension, as to start, to create a suitable for the younger generation of living space, rough texture, simple color, 粗糙的质感，简约的色彩，体现轻工业的存在感！透过空间的改造 reflecting the presence of light industry! Through the transformation of space and planning, to share, coexistence of integrated and planning, 达到共享，共存的一体式生活环境。 living environment.)

- 主材质: 质感漆 自流平水泥 玻璃 黑钢
乳胶漆 木地板

- 主色: 白色/灰色/蓝色系

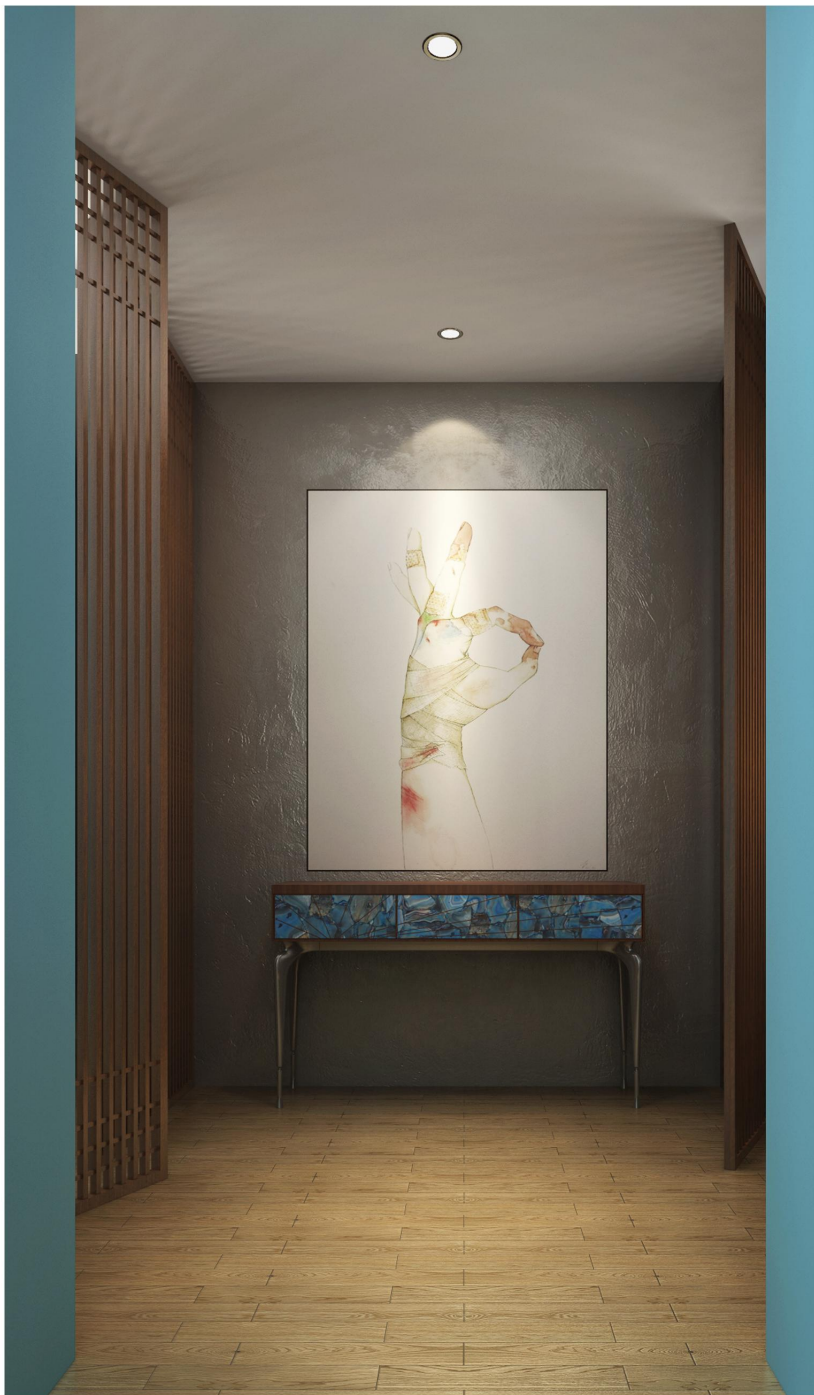

△. 从入户作为起点，摆放具备文艺气色的短景。透过洗水蓝的延伸，进入休闲的领域，提供接待与释放自我的空间，借助绿化的点缀，缓解视觉上的疲劳。

(From the home as a starting point. Placed with a short view of literary and artistic color, through the extension of water blue, into the field of leisure, to provide reception and the release of self-space, with green embellishment, ease the visual fatigue!)

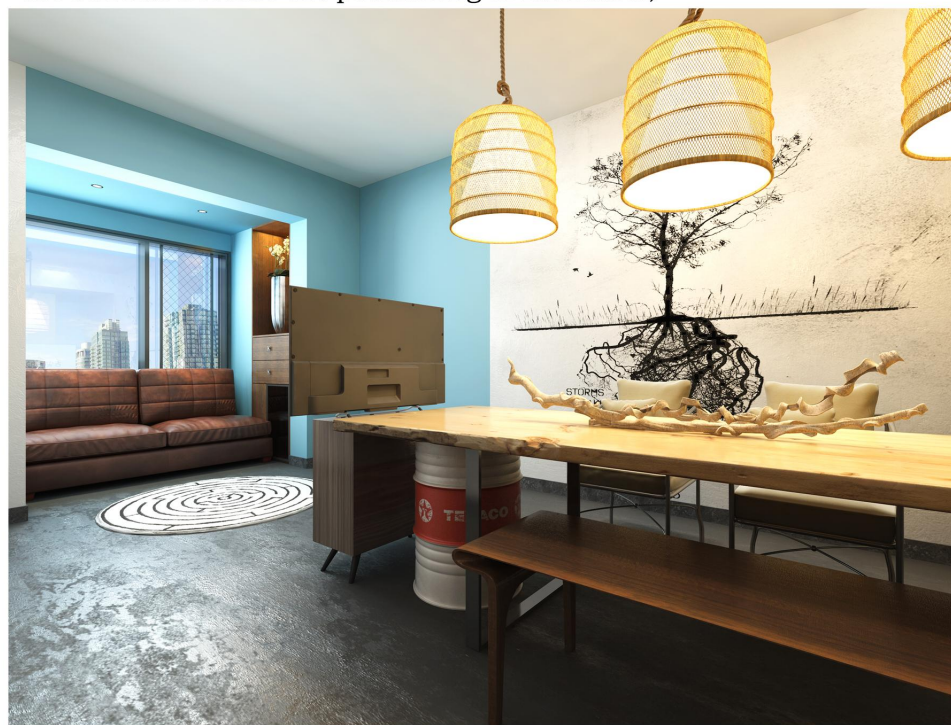

A. 过道成为空间互动链接的一条线，屏风便成了线的影子！分隔左手与右手的触摸。右边是一个不传统的生活空间，客厅、餐厅、厨房，却共存一体。客厅没有想象中宽阔，偏向别致与多功能的使用方式。可移动的沙发，随意而不约束；随性成了家具的定位！

(Aisle becomes a line of interactive space, the screen becomes the shadow of the line! Divide the left hand with the right hand touch. On the right is a non-traditional living space, living room, dining room, kitchen, but coexistence, living room is not imagined wide, biased chic and multi-functional use, removable sofa, free and not bound. With the sex has become the positioning of furniture!)

B. 餐厅以办公与膳食互用为设定。修长的桌子满足两者的需求，简洁的墙体，没有过多的修饰，粗糙的涂鸦，张显个性的质感。

(The restaurant is set up for office and meal interchange, slender tables to meet the needs of both, simple walls, no excessive decoration, rough graffiti, Zhang Xian personality texture.)

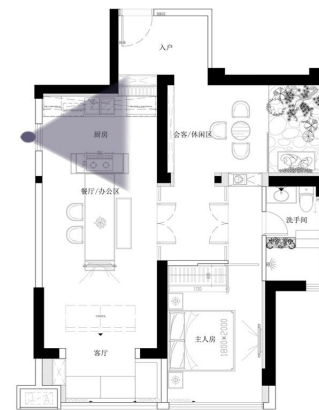

△. 相连的厨房保持纯色的延续，明亮由爵士白的墙体与烤漆的柜板所构成。减少水泥漆地面带来的暗沉，一体式与嵌入式厨房电器有效的丰富了功能性与整齐度，着色玻璃分隔开区域的使用，但同时又透视着区域的存在！

(Connected to the kitchen to maintain a solid color continuation, bright by the jazz white walls and paint the composition of the cabinet. Reduced cement paint on the ground to bring the dull, integrated and embedded kitchen appliances effectively enriched the use of functional and uniformity, tinted glass separated area, but also perspective the presence of the area!)

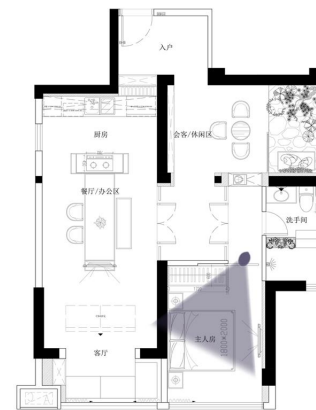

- A.** 离开客餐区，往左走，便是一个中转站，休息与洗涤的集中点，洗手间以高冷的爵士白为主，绕着周围的墙体，匹配仿古的地面，注重防滑的需求，下沉式的淋浴空间，不一样的减压方式！
(Leave the dining area, go left, is a transfer station, rest and wash the concentration point, the toilet to the high cold jazz white, surrounded by the surrounding walls, matching the antique ground, pay attention to anti-skid demand Shen-style shower space, not the same way decompression!)

- B.** 房间以鲜明的床头背景为牵引，简白的背板暗藏着光线的余影；灰黑色的花纹砖，冲击视觉的成像，剩下的就是留白的本质。
(The room with a clear background of the bed for the traction, simple white backboard hidden behind the light, gray black tiles, the impact of visual imaging, the rest is the essence of white.)

那么终点在那里？每一天的结束，也是伴随着每一天的开始，本案延续的不止是空间，还有每一天的记录，直到年迈的某一天，回想起。。。！

(Then the end is there? The end of each day, but also accompanied by the beginning of each day, the case is not only the continuation of space, as well as every day of the record, until the old day, recall。。。！)

The End

什么是和谐? What is harmony?

“延”是一种自由的体现，自由是每个人从来没有忘记与追逐的生活方式，本案的规划，表达和谐共生的意念，以共享进行活动的轨迹，所共享的不是物体，而是空间，虽然是单独存在着，却透过广泛的功能性互动串联在一起。

("Yan" is a manifestation of freedom, freedom is that everyone has never forgotten with the chase of life, The planning of the case, the idea of a harmonious symbiosis, to share the activities of the trajectory, the share is not an object, but the space, although it exists alone, but through a wide range of functional interaction in series together.)

什么是更具品质的居住环境? What is a more quality living environment?

舒适与个性。

一个舒服的环境，能使用户起到减压的作用，体现自在的家庭享受！充足的舒适度，是每天能量的补充。

个性的生活布置，让空间减少沉闷的气氛，赋予多样性的选择！“不一”的生活感受，
(Comfort and personality.

A comfortable environment, allowing users to play the role of decompression, reflect the enjoyment of free family! Adequate comfort is the daily energy supplement.

Personality of the layout of life, so that space to reduce the dull atmosphere, given the choice of diversity!
"Different" life experience, is the choice of a, but also to create a landscape!)

什么是通过更好的居住让城市更美好？ What is better to live by a better city?

“动手”，一个只属于自己的生活空间，前期的规划布置，后期的自我搭配（软装），体现不一样的生活色彩。

满足自我的设计欲望，又影响旁人的思维感观！

城市从不缺少美好，缺少的是一份延续美好的动力。。。。。。！

("Hands", one only their own living space, pre-planning layout, the late with the self (soft), reflecting the different life color.

To meet the desire of self design, but also affect the thinking of others thinking!

The city is never lack of good, the lack of a continuation of a good power.....!)
