

设计说明：

设计来源于当地特产的食材“雁来蕈”，在三座民宿中对于时节的要求设计独特的造型。在如今大棚食材泛滥的今天，依旧恪守本分，按时按序生长的雁来蕈遵循了孔子的饮食概念“不时，不食”，以自身成长的规律去适应时节变换。

时间在如今的社会中悄然加速，季节更替仿佛也让人不经意察觉。空间的放缓设计让人的注意力更多的是在室外的景象变幻和时节交替带来不同的意象感受。让身处在行亦的人们与时间来一次深层次的交流，抚平在都市带来的浮躁心绪。

通过与当地的自然景观相融合，加入“不时，不食”的文化概念，用时节这一普通又特殊的设计主题，营造出“晚来天欲雪，能饮一杯无”亲切的民宿氛围。

The design comes from the local food material, "Goose mushroom", in the three buildings for the design of unique requirements for the season modeling. Today, when the greenhouse is overflowing with food materials, they still abide by their duty. The Goose mushroom, which grows in order on time, follows Confucius' dietary concept from time to time and does not eat, "and adapts to the changing seasons with the laws of his own growth.

Time accelerates quietly in today's society, and seasonal turnover seems to be inadvertent. The slowing design of space makes people pay more attention to the different image feelings brought about by the change of the scene outside and the alternation of the seasons. Let people in line with the time to have a deep exchange, to ease the floating mood in the city.

By merging with the local natural landscape, adding the cultural concept of "from time to time, not eating" and using the ordinary and special design theme of the season, we can create a warm atmosphere of "having a cup of snow in the evening".
