无想 · 气球

Wuxiang The Balloon

努力向上的气球代表了每个人的童真与梦想
无想山，音乐节
居于理想之地
返归最质朴情绪的集会
气球成为一个原始符号
居无想 · 寻梦想

Balloon represents childhood dreams
Wuxiang Mountain, music festival
in a Utopia
is a gather of pure emotion
Balloon becomes a pure symbol
In Wuxiang, searching dream...

直径15m的气球容纳约1767立方米纯氦气，产生浮力典型值2049kg，利用氦气氮气混合气体调整气球浮力与配重平衡。高密度铝箔作为小型氦气球常用材料，内部增涂防渗涂层，保证气密性。气球球面反射地面场景，成为整个音乐节场地的实时直播屏和全景交通指引。

The diameter of 15m sphere containing pure helium can lift 2049kg things up; Using mixture of helium and nitrogen to control the flotation. The high density aluminum foil widely used as typical skin of helium balloon are utilized with inner impermeable layer.

The balloon reflects the ground, serving as live screen and panoramic map of the site.
